SUMMARY

I'm a computer science graduate with a background in business administration, transitioning fully into software development. Passionate about technology and problem-solving, I'm eager to begin my professional journey in the tech industry. I value continuous learning, teamwork, and clear communication, and I'm driven to contribute, grow, and make an impact as a developer. Starting March 2026, I will begin my M.Sc. in Computer Science with a specialization in Artificial Intelligence, further strengthening my academic and professional path.

EDUCATION

2022-2025 - B.Sc in computer science - The college of management Academic Studies

Projects: Developed Smarketing an AI based web platform that helps small and medium sized businesses create and manage their online marketing campaigns. The system automates the entire process, from collecting business details to generating personalized landing pages and launching Google Ads campaigns. The project integrates technologies such as Node.js, Express, React, MongoDB, and the Google Ads API, and focuses on automation, analytics, and user-friendly design. **Achievement:** Presented Smarketing on the TV show Shark Tank Israel to pitch for investment and showcase the project's innovation and business potential.

2023-2024 - Udemy - Completed courses in Full-Stack Development, Python, Selenium, and React, gaining hands-on experience in building web applications, automating tasks, and creating dynamic front-end interfaces.

2019-2022 - B.A in business administration - Peres Academic

- Specialized in Finance, including an advanced course in Capital Markets.
 - Final Project: Conducted a comprehensive business analysis, including profit and loss assessments, and provided recommendations for business improvement and optimization.
-

2014-2017 - Military service - Managed inventory and finances of the on-base canteen

PROGRAMMING PROFICIENCY

Web Development: proficient in JavaScript , Node.js , Express.js , React , MongoDB

DataBases: NoSQL, SQL

Programming languages: proficient in Python , C , C# , C++ , Java

Additional Skills: Strong expertise in algorithm design and problem-solving

SKILLS

- Fast learner with a proven ability to quickly adapt to emerging technologies and ideas.
 - Skilled in team collaboration and effectively managing group-based projects.
 - Strong communication and interpersonal abilities, fostering seamless interactions.
 - Technically proficient, with expertise tailored to the high-tech industry's demands.
-

LANGUAGES

Hebrew - Native

English - Fluent
