ABOUT ME

Computer Science graduate and M.Sc. student with an **AI specialization** at Reichman University. Full-stack developer experienced with **React, React Native, TypeScript, Node.js, PostgreSQL, and MongoDB**, focused on **AI-powered applications**. Hands-on experience building **end-to-end** web and mobile products, from architecture and APIs to user experience, both independently and as part of collaborative teams. Bringing a product-oriented mindset focused on usability, business impact, and delivering practical solutions for real users.

PROJECTS

Dohot · AI-Powered Mobile Platform for Field Technicians 2024 – 2025

React Native · Expo · TypeScript · Node.js · PostgreSQL · Supabase · OpenAI

- ▶ Built a **production** mobile app for field technicians to generate branded reports, quotes, and PDFs on-site, **replacing paper workflows entirely** and reducing on-site admin time.
- ▶ Integrated **OpenAI** to generate and restructure report content from short prompts, **cutting authoring time** significantly for non-technical users.
- ▶ Owned the full stack: multi-step forms, image capture, on-device **PDF generation**, and Supabase-backed auth, storage, and role management, delivering a polished user experience end-to-end.

DevMentorAI · AI Interview Simulation Platform 2024

React · TypeScript · Node.js · Express · MongoDB · OpenAI

- ▶ Built an AI interview simulator generating personalized technical sessions across theory and live coding, giving users a realistic and **focused practice experience**.
- ▶ Designed a **scoring engine** that evaluates open-ended answers and returns structured, **actionable feedback**, helping users identify gaps and improve faster.
- ▶ Added progress tracking with scores, session history, and trends, giving users **measurable visibility** into their improvement over time.

Smmarketing · Marketing Automation SaaS for SMBs 2023 – 2024

React · TypeScript · Node.js · Express · MongoDB · Google Ads API

- ▶ Engineered a **multi-tenant SaaS** that centralizes digital marketing for SMBs, significantly **reducing manual work** and giving business owners a single place to manage campaigns.
- ▶ Integrated the **Google Ads API** to fully automate campaign creation, audience targeting, and personalized landing pages, removing the need for third-party agencies.
- ▶ **Selected to present on Shark Tank Israel**, recognized for real-world product viability and **commercial potential**.
